

2nd ANNUAL SCIENCE DAY

PARENT PRESENTERS NEEDED

NOVEMBER 9, 2007

8:30 a.m. - 10:30 a.m.

Science Day at Holy Spirit Prep is designed to stimulate our students' interest in science. It is also another great opportunity for parents to participate in the classroom! During Science Day, parent volunteers will meet with several classes, including their child's class, during the course of the morning as individual classes rotate through parent led presentations. Presentations can run no longer than 25 minutes and can involve a brief lecture and experiment or a sharing of a science related hobby or career. If you have a vocation, hobby or interest in science that you would be willing to share with our students, please return the bottom portion of this flyer to the main office. If you need additional information regarding the event, contact Frankie Wutschel at fwutschel@yahoo.com or Merideth Sasser at meridethsasser@comcast.net.

There are many great books which outline simple experiments for kids. If you are interested in presenting, but would like guidance picking a topic and designing an experiment, we will help you! Just complete the form below and return it to the main office. Please note that 5th and 6th graders will travel to the upper school for Science Day led by the upper school students.

Name: _____

Child(ren)'s name(s) and grade(s): _____

_____ I have chosen a presentation topic. My topic is _____

_____ I want to participate, but need guidance choosing a presentation topic.

Home phone/cell: _____ e-mail: _____ @ _____

*All topics are subject to the approval of the Science Day Committee. You will be notified in writing when your topic has been approved.
